

INVESTOR FACT SHEET

Goldcorp is a leading senior gold producer with low-cost operations and development projects located in politically stable jurisdictions throughout the Americas. We strive to deliver sustainable value to our stakeholders and remain firmly focused on the elements that continue to drive our success:

- Quality growth
- Gold focus
- Safe, profitable production
- Peer-leading balance sheet
- Operating in low-risk jurisdictions
- Commitment to sustainability

Sustainable Prosperity

Goldcorp is dedicated to responsible gold mining practices and is committed to contributing positively to the sustainable prosperity of all our stakeholders. This means working to conduct our business in a way that ensures lasting social progress and economic growth for individuals, families, communities, partners, and the future of Goldcorp.

Map Legend

1. Musselwhite Mine, Ontario, Canada
Underground mine, mill
2. Éléonore Project, Québec, Canada
Production in late-2014
3. Cochenour Project, Ontario, Canada
First production from development ore in late 2014
4. Red Lake Mine, Ontario, Canada
Underground mine, mill
5. Porcupine Mine, Ontario, Canada
Underground mine, mill
6. Wharf Mine, South Dakota, USA
Open pit, heap leach
7. El Sauzal Mine, Chihuahua State, Mexico
Open pit, mill
8. Peñasquito Mine, Zacatecas State, Mexico
Two open pits, heap leach, mill

Production Highlights by Mine

Gold (oz)	2013 Actual	2014 Guidance
Peñasquito	403,800	530,000 - 560,000
Red Lake	493,000	440,000 - 480,000
Pueblo Viejo (40.0%)	325,200	405,000 - 420,000
Los Filos	332,400	330,000 - 345,000
Porcupine	291,900	290,000 - 305,000
Musselwhite	256,300	230,000 - 240,000
Marlin	202,200	175,000 - 185,000
Cerro Negro	–	130,000 - 180,000
Alumbraera (37.5%)	117,500	125,000 - 130,000
El Sauzal	80,600	100,000 - 105,000
Marigold (66.7%) ²	107,500	21,800
Wharf	56,200	60,000 - 65,000
Éléonore	–	40,000 - 60,000
Total	2,666,600	2,950,000 - 3,100,000¹
Total Silver (koz)	2013 Actual	2014 Guidance
	30,326	34,000 - 36,000
Total Copper (klb)	2013 Actual	2014 Guidance
	90,600	88,000 - 93,000
Total Zinc (klb)	2013 Actual	2014 Guidance
	279,300	315,000 - 325,000
Total Lead (klb)	2013 Actual	2014 Guidance
	159,100	135,000 - 145,000

¹ Mine-by-mine ranges reflect expectations at individual mines, but do not add up to corporate-wide guidance range total.

² Marigold mine divested April 4, 2014, the 2014 guidance figure is the actual Q1 2014 production.

9. Camino Rojo Project, Zacatecas State, Mexico
Pre-feasibility study expected to commence in late 2014
10. Los Filos Mine, Guerrero State, Mexico
Two open pits and underground mine, common heap leach
11. Marlin Mine, Guatemala
Underground mine, mill
12. Pueblo Viejo Mine, Dominican Republic (40%)
Open pit, mill
13. El Morro Project, Atacama, Chile (70%)
Project is currently suspended pending ruling by Supreme Court which is expected by the end of Q3 2014
14. Alumbraera Mine, Catamarca, Argentina (37.5%)
Open pit, mill
15. Cerro Negro Mine, Santa Cruz, Argentina
First gold pour occurred on July 25, 2014

Footnotes

1. The information contained herein contains "forward-looking statements," within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation, concerning the business, operations and financial performance and condition of Goldcorp Inc. ("Goldcorp"). Forward-looking statements include, but are not limited to, statements with respect to the future price of gold, silver, copper, lead and zinc, the estimation of mineral reserves and resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, hedging practices, currency exchange rate fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, timing and possible outcome of pending litigation, title disputes or claims and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans," "expects" or "does not expect," "is expected," "budget," "scheduled," "estimates," "forecasts," "intends," "anticipates" or "does not anticipate," "believes" or variations of such words and phrases or statements that certain actions, events or results "may," "could," "would," "might" or "will be taken," "occur" or "be achieved." Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Goldcorp to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; risks related to international operations; risks related to joint venture operations; actual results of current exploration activities; actual results of current reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of gold, silver, copper, lead and zinc; possible variations in ore reserves, grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes; delays in obtaining governmental approvals or financing or in the completion of development or construction activities and other risks of the mining industry, as well as those factors discussed in the section entitled "Description of the Business – Risk

Factors" in Goldcorp's annual information form for the year ended December 31, 2013 available at www.sedar.com. Although Goldcorp has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Goldcorp does not undertake to update any forward-looking statements that are included in this document, except in accordance with applicable securities laws.

2. Cautionary Language Regarding Reserves and Resources: For further information on Mineral Reserves and Mineral Resources (including grades and tonnes) and on Goldcorp more generally, readers should refer to Goldcorp's Annual Information Form for the year ended December 31, 2013, and other continuous disclosure documents filed by Goldcorp since January 1, 2014, available on SEDAR at www.sedar.com and on the United States Securities and Exchange Commission at www.sec.gov.

3. Cautionary Note to United States Investors: The terms of 'Measured', 'Indicated' and 'Inferred Resources' are such terms that while those terms are recognized and required by Canadian regulations, the United States Securities and Exchange Commission does not recognize them. "Inferred Mineral Resources" have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an Inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of Inferred Mineral Resources may not form the basis of feasibility or other economic studies. United States investors are cautioned not to assume that all or any part of Measured or Indicated Mineral Resources will ever be converted into Mineral Reserves. United States investors are also cautioned not to assume that all or any part of an Inferred Mineral Resource exists, or is economically or legally mineable.
