CASSIAR GOLD CORP

Corporate Presentation - October 2020

*1M oz resource and drilling in search for
the next multimillion-ounce Gold camp in BC*

Cautionary / Forward Looking Statements (cont.)

Disclaimer: This presentation does not constitute an offer to sell or solicitation of an offer to buy any of the securities described herein. The sole purpose of this presentation, in paper or electronic form, is strictly for information purposes as of August, 2020. Neither Cassiar Gold Corp. (“Cassiar Gold” or the “Company”) nor any of its current or proposed directors, officers, owners, managers, partners, consultants, employees, affiliates or representatives, make any warranty or representation, whether express or implied, or assume any legal liability or responsibility for any action taken in reliance upon this presentation, or for the accuracy, completeness, or usefulness of any information disclosed in this presentation. The information contained herein has been prepared to assist interested parties in making their own evaluation of the Company and its business and does not purport to contain all the information that prospective investors may require. Prospective investors should conduct their own investigation and analysis of the Company and its business and the information contained in this presentation as well as any additional information provided by the Company. The information herein is not intended to provide, and should not be relied upon for, accounting, legal or tax advice or investment recommendations. A recipient of this presentation should consult his or her tax, legal accounting or other advisors about the matters discussed herein. An investment in the Company is speculative and involves a high degree of risk. The TSX Venture Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this presentation. Statements in this presentation other than purely historical information including statements relating to the Company's future plans and objectives or expected results, are forward-looking statements. This presentation contains certain forward-looking information or forward-looking statements (collectively, "Forward-Looking Statements") within the meaning of applicable Canadian securities legislation. Such Forward-Looking Statements include statements regarding: expectations on the size of resource on the Company's properties, timing of ability to obtain resources reports and preliminary economic assessments, plans for mineral processing, timing and ability to raise capital and use of proceeds of such financings, long term acquisition and developments plans, and the ability to enter into acquisition or option agreements and the timing and terms of same, Forward-looking statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in the Company's business, including risks inherent in resource exploration and development. As a result, actual results might vary materially from those described in this presentation. Except as required by Canadian securities law, neither the Company nor its management is under any obligation, and does not undertake, to update any of this information at any particular time. Neither the Company nor its management assumes any obligation to update or revise forward-looking statements should circumstances or estimates or opinions changes.

The 2019 Cassiar project resource estimate (dated November 12, 2019) was prepared for Cassiar Gold Corp. according to NI 43-101 standards. The Table Mountain resource estimate was done for a previous operator according to NI 43-101 standards. Readers are cautioned that the Table Mountain resource estimate has not been verified by Cassiar Gold, and is considered historical in nature. There is no current or historical resource for the Cassiar tailings deposit.

Cautionary / Forward Looking Statements (cont.)

FOFI Disclosure

This presentation contains future-oriented financial information and financial outlook information (collectively, “FOFI”) about the Company’s prospective capital structure, enterprise value, EBITDA, revenue, expenses, profit and components thereof, all of which are subject to the same assumptions, risk factors, limitations and qualifications as set forth in the above paragraphs. FOFI contained in this presentation was made as of the date of this presentation and was provided for the purpose of providing further information about the Company’s anticipated future business operations. The Company disclaims any intention or obligation to update or revise any FOFI contained in this presentation, whether as a result of new information, future events or otherwise, unless required pursuant to applicable law. Readers are cautioned that the FOFI contained in this presentation should not be used for purposes other than for which it is disclosed herein.

Qualified Person

Kaesy Gladwin, VP Exploration for the Company, is a "Qualified Person" as defined under NI 43-101 and has reviewed and approved the technical content of this document.

Why Invest

FOUNDATIONAL RESOURCE: Over 1M oz Au @ 1.43g/t NI 43-101 compliant inferred resource already identified¹

WORLD-CLASS TEAM: Doug Kirwin and James Maxwell (Advisors), Steve Letwin and Chris Stewart (Directors)

SAFE JURISDICTION: Northern BC, Canada, with community support and engagement

GREAT INFRASTRUCTURE: Highway, property access roads, power, camp, mill

UNDERVALUED: \$/oz of gold well below industry peers

MULTIMILLION OZ GOLD CAMP POTENTIAL: Demonstrated gold endowment, with significant additional upside from bulk tonnage and high-grade gold prospects

Board and Management

STEPHEN LETWIN, Director

- +30yrs in extractive resource sector
- President & CEO of IAMGOLD CAD\$2Bn mkt cap. from 2010-2020
- Previously executive VP Gas Transportation & International with Enbridge Inc., President & COO of TransCanada Energy
- Specializing in corporate finance, operational management, and M&A
- Solid track record of strong financial and operational performance in the mining industry across Canada, South America and West Africa

MARCO ROQUE, CEO and Director

- +15yrs of international finance experience including banking, capital markets, venture capital and corporate advisory
- Co-founder of Reyna Silver, and co-founder of Arabian Shield Resources;
- Advisor of Emerging Markets Capital, a Hong Kong Mining Investment firm
- Former banker at Millennium BCP and Barclays Capital
- CFA Charter holder

JAMES LETWIN, Chairman

- Executive Chairman of Jan Kelley
- MBA, Institute of Corporate Directors ICD.D
- +5yrs experience in the mining sector
- Specialization in corporate strategy, marketing
- Award-winning instructor within the MBA program at McMaster University's DeGroote School of Business for more than 20 years

JAMES MAXWELL, Advisor

- +20yrs experience as professional geologist
- Exploration Manager Sabina Gold & Silver Corp, helped grow >5M oz gold resource
- Co-Award winner of North-western Ontario Prospectors Association Discovery of the Year award

DOUGLAS KIRWIN, Chief Technical Advisor

- +49yrs of international exploration experience including detailed knowledge of Tienshan geology and mineral deposits
- Previous Executive VP for Ivanhoe Mines Limited from 1995-2012
- Member of the joint discovery team for the super-giant Hugo Dummett deposit at Oyu Tolgoi in Mongolia
- Co-recipient of the 2004 PDAC's Thayer Lindsley Award

CHRIS STEWART, Director

- +25yrs as a Mining Engineer & Turnaround Specialist: Kirkland Lake, Liberty Mines & Lake Shore Gold
- President & COO McEwen Mining CAD\$800M mkt cap
- Previously President & CEO/Treasury Metals, VP Operations/Kirkland Lake Gold, VP Operations/Lakeshore Gold
- Track record for successful new mine advancement and development and optimization of existing mines in Canada and abroad

KAESY GLADWIN, VP Exploration

- +15yrs in mineral exploration and project management
- Contributed to exploration and resource growth at 3 major orogenic gold projects in Canada
- Technical background of model development and field exploration

WILSON JIN, Director

- Professional Geologist with +28 years of field exploration
- Former President and CEO of Huakan International Mining Inc.
- Led a successful exploration of the J&L Gold polymetallic deposit in BC. and also discovered a medium-sized gold deposit and made significant achievements in the exploration of adjacent claims of the Jinduicheng Molybdenum Porphyry
- Currently the CEO and a Director of Wildsky Resources (TSX.V WSK), CEO of C2 Mining International Corp and an independent director on two other publicly listed companies.

Douglas Kirwin, Chief Technical Advisor

- ✓ Geologist with 49 years of international exploration experience including detailed knowledge of Tianshan geology and mineral deposits
- ✓ **Executive VP for Ivanhoe Mines Limited** from 1995-2012
- ✓ Led the discovery team for the **super-giant Hugo Dummet deposit at Oyu Tolgoi in Mongolia**
- ✓ Previous director of Jinshan Gold and a founding non-executive Director of Ivanhoe Australia
- ✓ Currently the acting CEO of Realgold Corp and an independent consulting geologist working on projects in the Philippines, Peru, South Korea and the Kyrgyz Republic
- ✓ Co-recipient of the **2004 PDAC's Thayer Lindsley Award For Best International Mineral Discovery**

- Wildsky Resources
- Gold Mountains Asset Management
- Bowfort Capital – Mannix Family

GLDC.V Stock Chart – Oct 09, 2020

Undervalued, Well Poised to Rerate

As of October 13, 2020

Asset Location

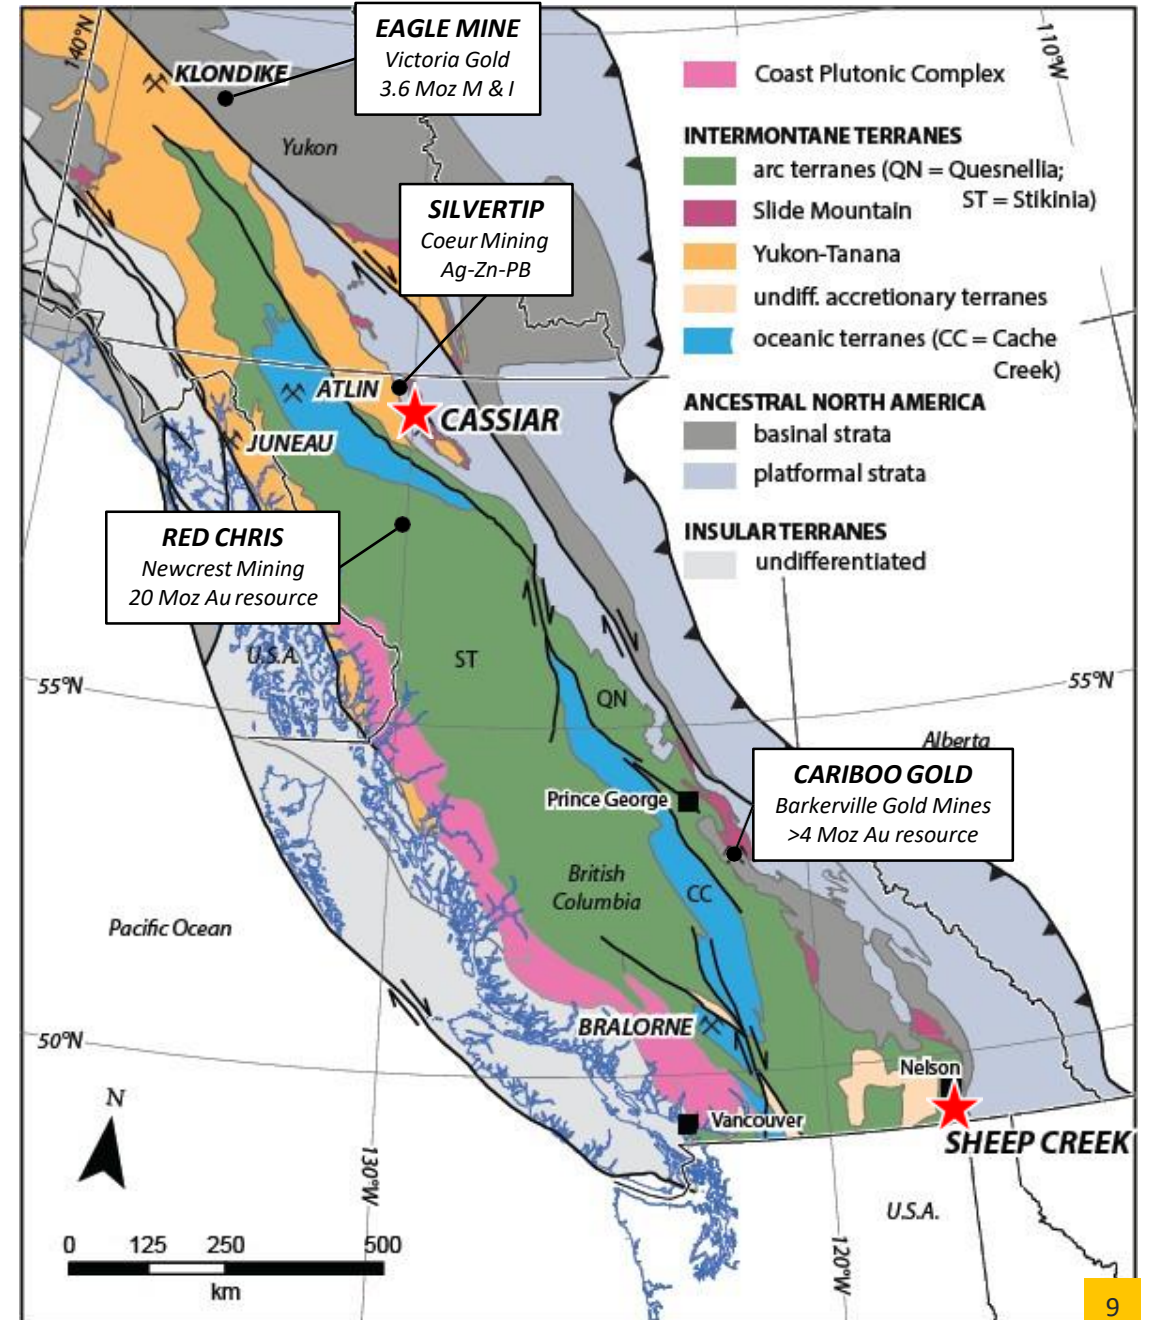

- Two important Orogenic Gold districts in B.C. – **Cassiar Gold** and **Sheep Creek**
- Both are analogous to the style of gold mineralization at Barkerville (as reported by Geoscience BC Orogenic Gold Project, 2017-15)

Cassiar Gold (Flagship)

- Comprises two main assets:
 - Taurus:** Near-surface bulk-tonnage **1 million oz gold resource @ 1.43 g/t**
 - Table Mountain:** 15km prospective strike length high-grade gold in quartz veins targets
- Site of historic Cassiar placer gold rush (1874 – 1895); estimated 100,000 oz placer gold produced
- Past-producing underground mines targeted high-grade gold in quartz veins; estimated 350,000 oz gold produced

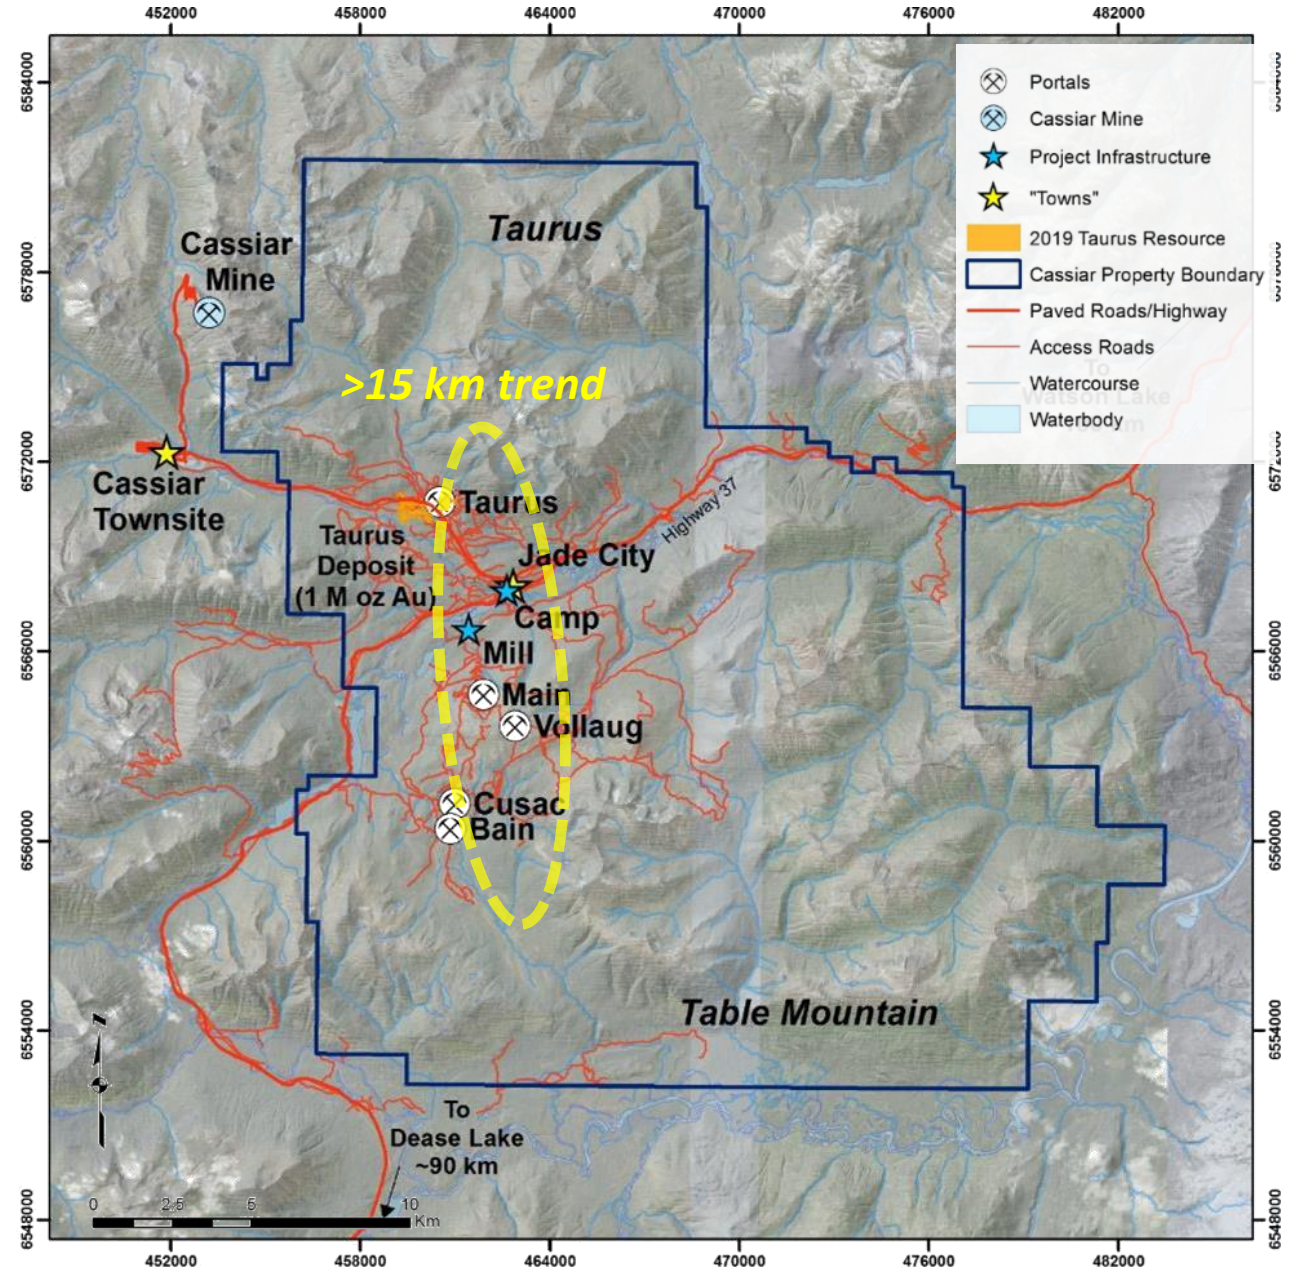

Sheep Creek

- 3rd largest past-producing orogenic gold district in BC
- Historical gold Production (1900 - 1951): 785,000 oz Au at 14.4g/t Au average grade

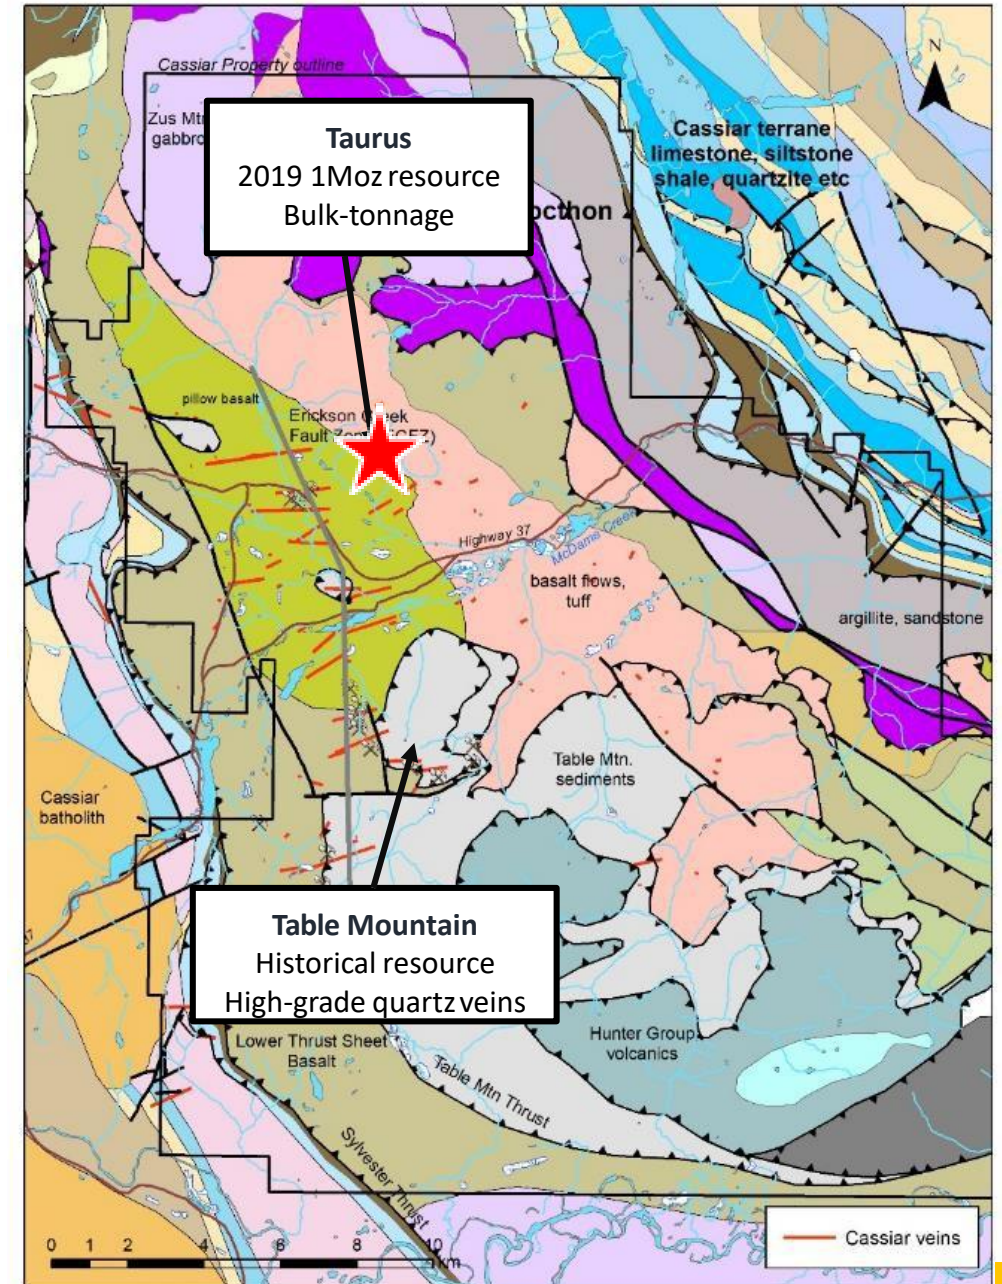

Cassiar Gold: Overview

- ✓ Advanced Exploration Project – **Taurus + Table Mountain Deposits**
- ✓ 56,000 hectare land package
- ✓ Taurus Deposit: NI 43-101 compliant 1m oz Au @ 1.43 g/t inferred resource – flat lying, near surface, bulk tonnage already identified
- ✓ Good infrastructure (Highway 37, property access roads, power, camp, water)
- ✓ Permitted 300 tpd mill (gravity/flotation)
- ✓ Potential gold in tailings from historic operation
- ✓ Bulk-tonnage gold opportunities with high-grade upside

Cassiar Gold: Opportunity

- **Orogenic Gold**
Large systems that host high-grade and bulk-tonnage deposits
- **Large land package**
56,000 hectares, with numerous gold showings
- **Taurus open in multiple directions**
Opportunities to infill, expand and explore around Taurus:
Focus 2020 Drill campaign
- **Table Mountain targets**
15 km system with multiple high grade quartz in vein targets with limited drilling
- **Brown field**
Historical 350,000 oz production from underground mining and 100,000 oz Cassiar placer gold rush produced (1874 – 1895)
- **Data-rich property**
Potential for unexplored bulk tonnage and high grade targets

¹ Cowley, 2017. Technical Report on the Cassiar Gold Property, British Columbia, Canada, for China Minerals Mining Corp, June 26, 2017, revised Oct. 2, 2017..

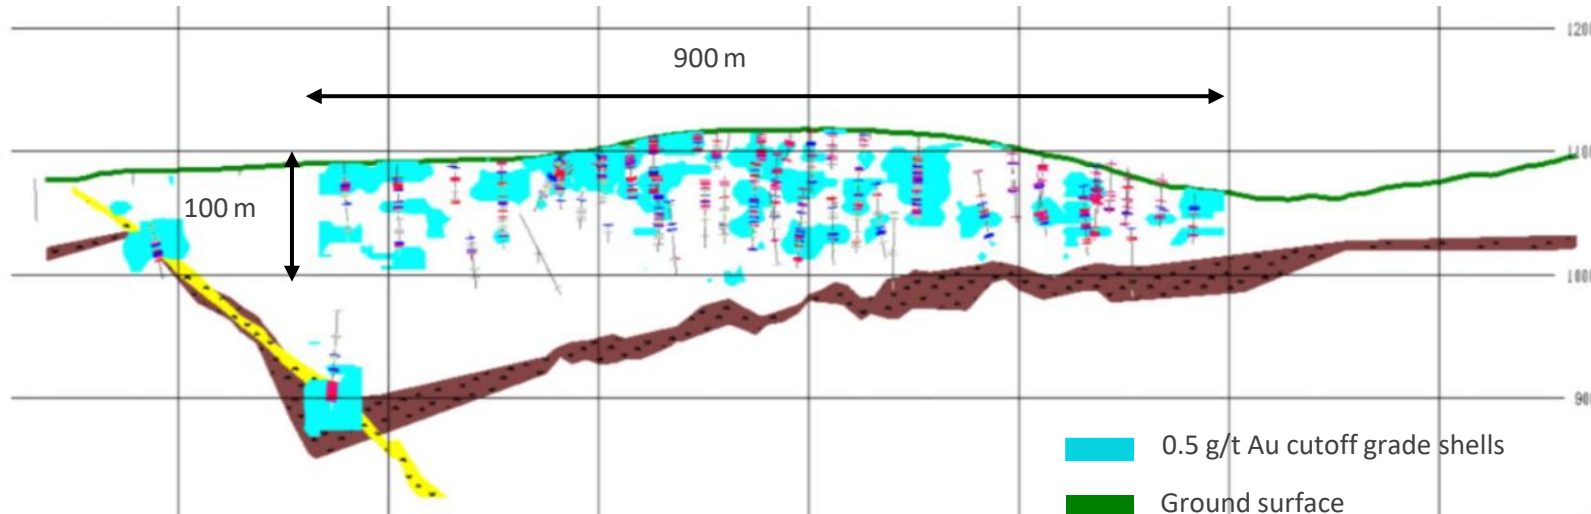

Bulk Tonnage Opportunity at Taurus

2019 Taurus Inferred Resource Estimate*

Au g/t Cut-off	Tonnes	Au (g/t)	Au (oz)
0.50	29,970,000	1.20	1,161,000
0.60	25,650,000	1.32	1,084,000
0.70	21,830,000	1.43	1,005,000
0.80	18,770,000	1.54	931,000
0.90	16,000,000	1.66	855,000
1.00	13,520,000	1.79	780,000

Longitudinal Section at Taurus

Favorable topography, good access, near surface, flat laying mineralization remains open

Long section 6570370N, looking north

“Our Cassiar property hosts a large gold system in an orogenic setting, with many quality targets that Cassiar Gold’s exploration team will develop and test in upcoming programs. We are excited to begin drilling on the Cassiar Gold Project, and look forward to delivering results, with a cost-effective and efficient program.”

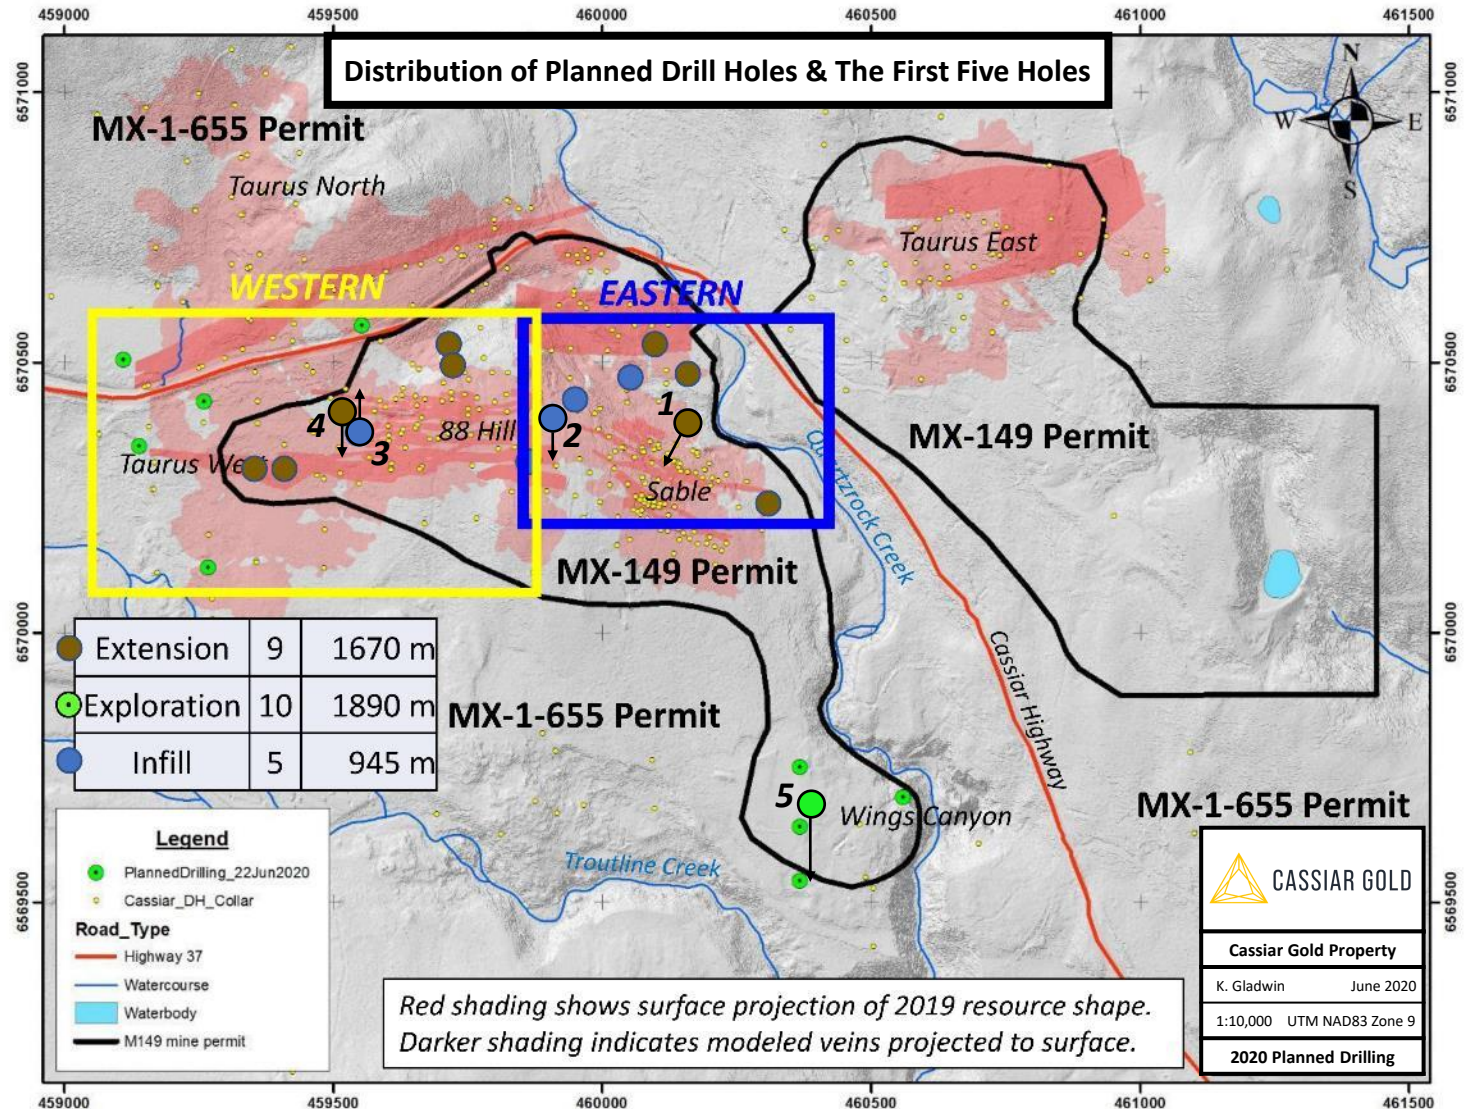

Kaesy Gladwin, VP Exploration

Ongoing 5000m Drilling Program at Taurus

Goal: To add ounces and extend the existing Taurus resource potential, and to continue the exploration of prospective areas within the property

Drill targets: A combination of expansion and exploration targets

Exploration targets identified in collaboration with:

High-Grade Upside at Table Mountain

- 350,000 oz historical production
- On-site permitted mill
- Many veins known with only minimal drilling
- 15km prospective strike length
- Significant exploration upside

2010 Historical Resource Estimate*

Category	Tonnes	Au g/t uncut	Gold oz uncut
Indicated	21,471	18.02	13,650
Inferred	65,757	24.30	56,360

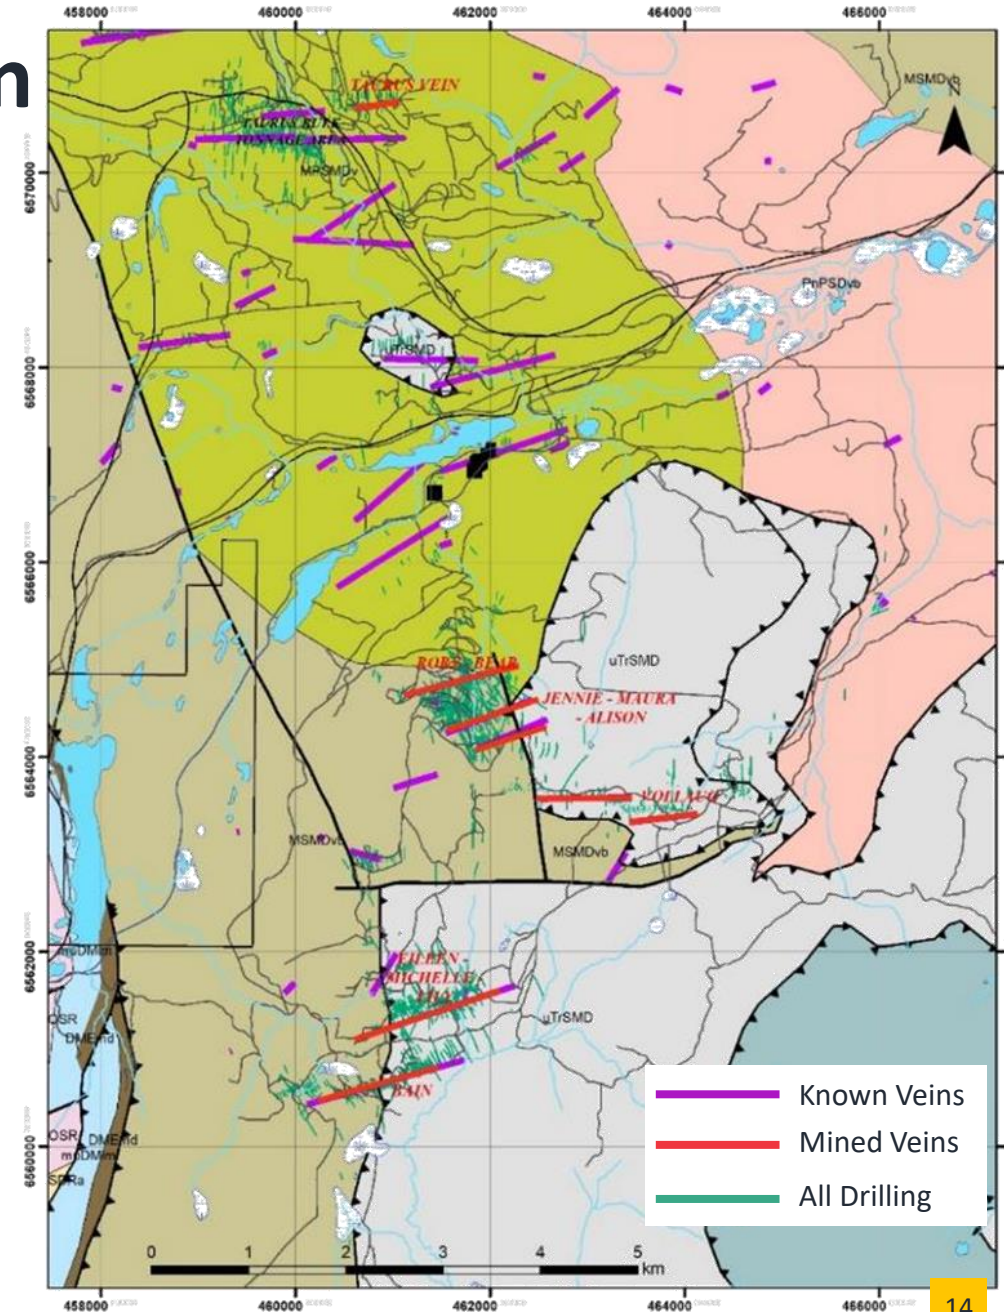

Cut-off grade = 3g/t Au

Past Production from High-Grade Veins

Veins	Year Mined	Tonnes	Ave. Grade Gold g/t	Oz Gold
Jennie-Maura-Alison-Bear	1979-1988	300,000	17.12	150,000
Eileen-Michelle-Lily	1986-1997	150,000	20.55	90,000
West Bain	1993-1995	60,000	13.70	24,000
Vollaug	1980-1997	170,000	10.27	50,000
Bear	1998	-	-	1,000
Rory	2006-2007	6,500	3.42	651
Taurus	1981-1988	320,000	4.11	350,000
Total:				350,651

Fleck of gold adjacent to pyrite grain in an extensional vein at Table Mountain

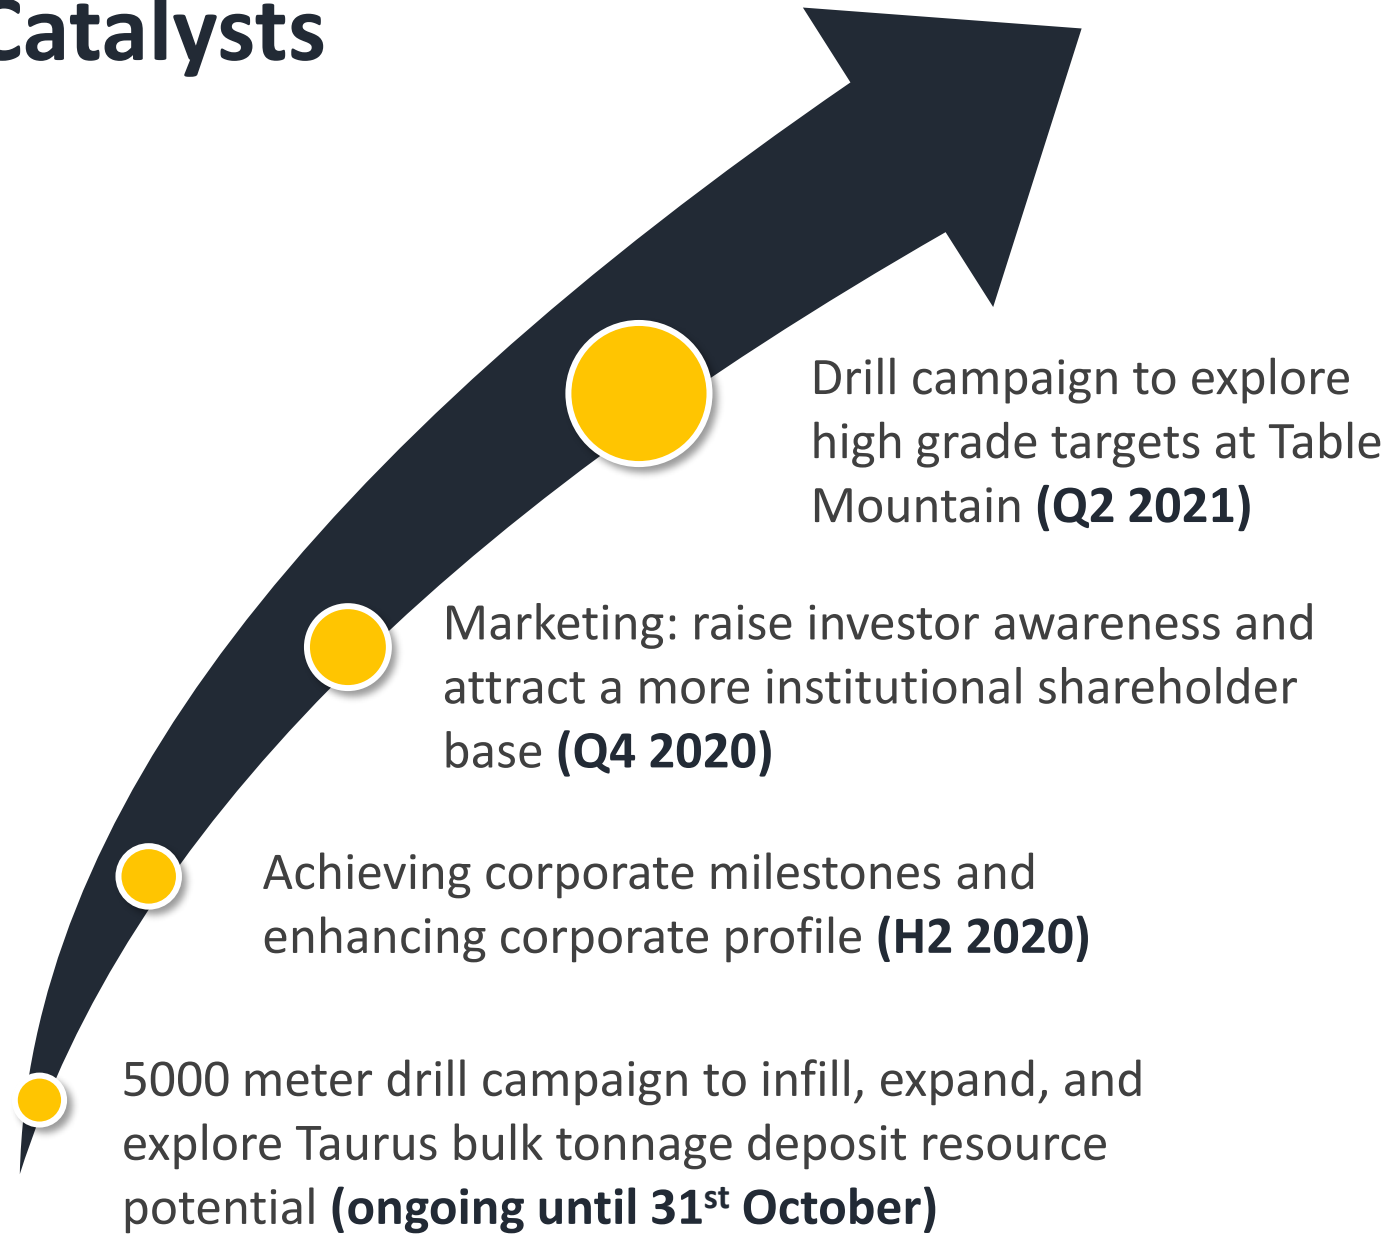

* Pearson and Bakker, 2010. Technical Report on the Table Mountain Property – Liard Mining District, B.C., for Hawthorne Gold Corp. Please note that this resource estimate was prepared for a previous operator. While it was completed in compliance to NI 43-101 standards, Cassiar Gold has yet to verify this resource and considers it a Historical Resource.
